**Presenter**

**Mousumi Halder**

Senior Capacity Building Officer, Climate Change Program, CCDB

**Presenter**

**Mohammad Nazmul Chowdhury**

Manager - Communication and Documentation, Climate Change Program, CCDB

**CCDB Climate Centre** is a knowledge hub for climate resilience. This is the destination for visitors to explore climate solutions in a landscape that features Bangladesh's main ecosystems. The centre offers exhibitions, training workshops, research, accommodation and conference facilities in an energy-efficient, and green environment.

**CCDB Climate Portal** is an interactive, web-based knowledge exchange platform provides access to climate information services, lessons learned and best practice examples of community-based adaptation and mitigation, mainly targeting practitioners at national and international levels.
